

Date: March 19, 2026  
Ref.No. : PD/MF/ 222 /26

Letter of Acceptance

It is with great respect and appreciation that we accept the grant allocated by your organization to recognize the highest achievers in the Department of Pediatrics and Child Health graduating class of 2025/2026 at Addis Ababa University.

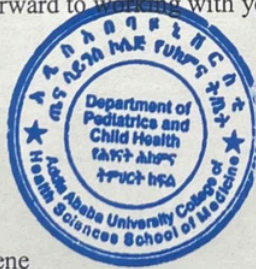

The graduating class consists of 28 residents who come from different parts of the country. They have trained with us for the past three years at the College of Health Sciences, working in one of the most demanding and highly burdened clinical environments. During this time, they have dedicated their time, knowledge, and even personal resources to care for sick children and support their families. I am confident that each of them will continue this commitment when they return to their respective hospitals and will contribute to reducing child mortality and morbidity in countries like ours, which aligns with the mission of your organization.

The Department nominate Dr. Kidist, from the Chief's Office, to coordinate the financial matters through the following account:

Account Number: [REDACTED]  
Account Name: [REDACTED]

On behalf of the department of Pediatrics and Child Health, we sincerely appreciate your generous contribution and look forward to working with you in the future.

Warm regards,

Dr ,Ayalew Moges Beyene  
Head, Department of Pediatrics and Child Health, Addis Ababa University.
