Agenda

1. Selecting proposals for funding

Discussion on the agenda

Based on the call for a second grant by the developing Medicine, UK based humanitarian organization to provide an economic support for female medical students in need and fund proposals by students, the committee established by the medical education and service director evaluated 11 proposals and one request of financial support. After thorough review of the proposals for the statement of the proposal, expected outcomes, feasibility, work plan and previous experience of the students, the committee decided the selection of the following proposals for the grant

1. Conceptual medical education for Ethiopian Medical Students by Elshaday Mezemir
2. Expanding school vision screening access in undeserved primary schools thorough student-led linkage to Eye care services by Edlawit Kassa, Tiwobista Getahun and Meklit Bereket
3. PCOS symptom awareness and self-tracking intervention for female Arba Minch University Students by Eldana Mechal and Edlawit Kassa
4. In addition the committee evaluated the proposal titled "Improving ANC follow-up of mothers attending AMGH" by Ayinabeba Wube and her financial support request and found that her request was genuine and decided to support her.
